

Put Some JUICE In Your MARKETING

GoogleJuice Website Audit

Your Website's Roadmap to the First Page of Google

Too many small businesses think that SEO, keyword strategy, and page 1 Google rankings require a magic formula. Or that the companies with the deepest pockets and a full-time staff of IT geeks get the top results on Google. Well, nothing could be further from the truth.

Top Search Results Using the 80-20 Principle

Achieving top ranking on Google is easier than you think. In fact, the most important tactics adhere to the Pareto Principle, better known as the “**80/20 Rule**” ... 20% of the tactics will yield 80% of the results. You just need to know which tactics have the most impact. And that's where the **GoogleJuice Website Audit** comes in. Here's what you get:

-  A comprehensive review of your website for keyword visibility and Google ranking
-  Personalized best practice recommendations to attract website visitors and keep them engaged
-  Analysis of your top 2 competitors to reveal their SEO tactics and keywords
-  A detailed, written summary of findings and top tactics to implement right now
-  Review recommendations by conference call and demonstrate SEO tactics via GoToMeeting session
-  Guide you in developing a keyword strategy to dominate search in your local market
